Sauer-Danfoss, Black Bruin and Parker are world leaders within production of low speed hydraulic motors with high torque. Torque Industries can supply more than 1600 different hydraulic motors, categorised in types, variants and sizes.

The motors vary in size (rated displacement) from 8 cm³ [0.50 in³] to 800 cm³ [48.9 in³] per revolution. Speeds range up to approx. 2500 min⁻¹ (rpm) for the smallest type and up to approx 600 min⁻¹ (rpm) for the largest type.

- Reliable quality for medium to heavy-duty tasks
- Best-in-class efficiency for reduced heat load and lower fuel costs
- Compact design with optional extras for high system performance
- Robust drivetrain for longer service life and improved productivity

Endless application possibilities
